

# Come and join us for the first annual Academic-Industry Liquid Rocket Symposium

Saturday, January 28, 2023 8 am - 5 pm

Hosted by the Tom Wathen Center at Flabob Airport, Riverside, CA

Network with industry and students from across California, and share your experiences.

This all-day event offers 8 talks and 8 demonstrations on subjects critical to the design and operation of liquid rockets. These subjects were selected for their relevance to all new and dedicated liquid rocketeers, and cover such subjects as:

Safety - Propellants - Cryogenics - Testing - Ignition - GSE - Operation - Design

Students and advisors are invited to gain valuable insight in preparation for future projects. Share experiences with other students and aerospace industry representatives. Each university may bring up to 10 people.

Students are encouraged to prepare a poster of these lessons learned and show off rocket hardware to peers and professionals throughout the event. The event is open to sophomores and juniors preparing for a new year of rocket activities.

Industry professionals may connect with with promising students and familiarize themselves with university liquid rocket projects.

\$20 per attendee. Industry admission is free. Food is provided.
